V. DIRECTOR/STAFF REPORTS

A. Director's Updates

1. Director Eppink shared that Interpretive Services Manager Shelley Tender has been recognized as the *Conservation Educator of the Year* by the Medina County Soil & Water Conservation District.
2. The Brown-Trump Homestead is the first-place winner in the *Management Innovation* category in the Ohio Parks and Recreation Association's (OPRA) 2023 Awards of Excellence program. The award will be presented during the annual Ohio Parks and Recreation Association's banquet on February 6, 2024, typically at 6:30 p.m., at Kalahari Resort, as part of the annual OPRA conference.

3. Director Eppink reported that the Chippewa Lake paddle-craft launch at Kennard Road is completed. It will officially open May 1, 2024 and will be open May - October each year. Earthwork and wetland enhancement was funded by H2Ohio. The parking lot and access to the outlet was funded by MCPD dollars.
4. The park district recently finalized the purchase of the former home of Theda Schleman, who donated Schleman Nature Preserve in the 1970s. The home is next door to, and immediately west of, the preserve and will become the park district's police headquarters.
5. In September, Director Eppink had mentioned the \$50,000 bidding threshold in response to the threshold for county commissioners increasing to \$75,000. The opinion of legal counsel, as well as that of other park districts and OPRA, is that ORC 1545 park districts are still at \$50,000. OPRA and several park districts are looking to have the threshold for park districts increased as well.
6. Director Eppink reported that he is scheduling public meetings December 5 at Krabill Lodge to share proposed rule changes for Chippewa Lake. The times are to be determined but likely to be 4 and 6 p.m. The director and Chief Swinehart have discussed making changes with Deborah Green from the Ohio Department of Natural Resources (ODNR). She is the rules expert; ODNR will have to approve and file any changes to rules at Chippewa Lake. This includes a public comment period. Ms. Green will attend the meetings.
 - a. Commissioner Neate commented that the proposed changes make sense conceptually, but he anticipates concern over the proposed no-wake time of 6 p.m.
 - b. Chairwoman Davis noted that the public will, most likely, attend to ask questions about the docking program. Director Eppink reported that Administrative Secretary Schrader is planning to attend the meeting to respond to docking questions.
7. Director Eppink invited the board members and legal counsel to attend the park district staff holiday party on Wednesday, December 20 at 11:30 a.m. at Buffalo Creek Retreat. Invitees also include retirees and a guest.
8. Staff Reports
 - a. Business Manager Chaney reported that the state's final audit report for fiscal years 2020-2021 is expected soon. She explained the Munis software program random anomaly occurring during the export process of the financial data that results in a discrepancy between the park district's report totals and those of the county auditor's office.
 1. An attempt was made to contract the park district's annual financial filing with the state auditor personnel the county utilizes; however, the schedule is full through 2024. Business Manager Chaney will prepare the annual filing as required in early 2024 and, for reliability, has made arrangements for the county auditor's office to provide the 2022 and 2023 financial data for the park district.

- b. Development Coordinator Peacock reported that a proposal submitted by Proximity Marketing has been selected by the Friends of the Parks Trustees for the development of a Friends website at a cost of approximately \$9,000.
 1. Westfield Companies is donating \$100,000 to the Friends for use in designing, implementing, hosting, and maintaining the website.
 2. Commissioner Neate commented that this is a great step for the Friends organization as it continues to grow.
 3. Development Coordinator Peacock noted that Westfield also mentioned supporting the park district with a fund-raiser promotion that would involve posting QR codes throughout the park district that could be scanned by the public for information and giving options.
 - c. Development Coordinator Peacock shared that the Friends of the Parks Trustees are partnering with the Cleveland Foundation for management of larger Friends funds.
 - d. Park Planner Kleshinski reported that no bids were received for the Chippewa North barn renovation project that was recently advertised. He said three contractors gave him the impression that any quotes submitted would have exceeded the engineer's project estimate of \$355,170. Per Director Eppink, the park district will rebid in 2024 with a revised engineer's estimate.
 1. Discussion was held regarding the possibility of bundling some of the various asphalt projects together and, perhaps, requiring the submission of performance bonds with bids that exceed \$50,000.
 - e. Director Eppink reported that no proposals were received for applying additional stone to a portion of the Lester Rail Trail and that one proposal was received for the Lester Rail Trail Fenn Road trailhead earthwork project, but the cost was over \$90,000. The park district will regroup and solicit proposals for a second time.

- C. Departmental Activities
1. Director Eppink provided the October departmental activity report for the board's review.
