

# Woodland Health Day of Service

Help us pull garlic mustard from sensitive wildflower habitats in several parks.

Come work together with OSU Extension Master Gardener Volunteers and park district volunteers to remove garlic mustard and other non-native plants from sensitive wildflower habitats in the parks. No prior experience is necessary. Please bring your own work gloves. This is an excellent opportunity to give back to your community and ensure a healthy park for future generations. Registration is encouraged but not required. Registered participants will be contacted in the event of a cancellation; others may call the cancellation hotline at (330) 239-3305. Ages eight to adult.
