

Take a Virtual Tour of Wolf Creek Environmental Center and the surrounding Alderfer-Oenslager Wildlife Sanctuary

Medina County Park District and TimeLooper™, Inc. have developed a FREE virtual tour of Wolf Creek Environmental Center and the surrounding Alderfer-Oenslager Wildlife Sanctuary. If you have been missing walking the trails, this is your chance to take a virtual walk through the park while learning from the park district's naturalists. The app allows you to bring the park into the comfort of your home. If you are up for an adventure, take the app to your backyard where you can make the virtual tour large enough to see and follow the trails on the map.

To enjoy the virtual tour, follow the simple steps below.

The virtual tour of Medina County Park District is currently available for download in the [Apple App Store](#) and the [Google Play Store](#).

- Download the Medina County Park District app onto a tablet or smartphone from the Apple App Store or Google Play Store.
- Open the app, and follow the step-by-step directions provided on the screen within the app.

Teachers can also integrate the app into virtual learning.

How you choose to use this app in your virtual learning is up to you. Here are a few ways that our naturalists suggest utilizing this engaging tool with your students:

- Encourage families to use the app together as an enrichment activity.
- Facilitate self-study of habitats by utilizing this as a review or homework assignment with questions.
- Have fun by turning it into a scavenger hunt, looking for certain plants or animals in each habitat.

Integrate the app directly into your programming by downloading the app onto your own device and sharing your screen so that your students are experiencing the adventure right alongside you, in real-time.
