1. Roll call showed Chairwoman Davis, Commissioner de Luna, and Commissioner Neate present. Also in attendance were Director Eppink, Operations Manager Perry, Communications Coordinator Gladden, Business Manager Chaney, Legal Counsel Holland, and Guests John Sandora of the Save the Lake committee; Bill Thombs, Bud Hardesty, and Keith Riedel of Chippewa Lake village; Alan Robbins of Chippewa Lake Village Council; and Jill Heck of Medina/Chippewa Lake.

II. APPROVAL OF MINUTES

A. May 15, 2019

B. June 10, 2019

1. Commissioner de Luna offered a motion approving the minutes of the May 15, and June 10, 2019 meetings as presented. Commissioner Neate seconded; the motion unanimously carried.

III. PUBLIC PARTICIPATION

A. Guest John Sandora of the Save the Lake committee requested that, due to heavy flooding and road closures in the Chippewa Lake area, the board reconsider its position regarding the Save the Lake committee's resolution requesting that Muskingum Watershed Conservancy District (MWCD) annex the Chippewa Lake outlet into its jurisdiction.

1. Background Notes:

- a. As previously stated at the park board's January 17, 2019 meeting, it is Legal Counsel Holland's opinion that said resolution, as presented by the Save the Lake committee, suggests that the park district will begin legal action requesting MWCD to expand its jurisdictional boundaries.
- b. Director Eppink had, at the January meeting, reminded those in attendance that Boris Slogar of MWCD had stated at the park board's November 14, 2018 meeting that MWCD has no interest in expanding its jurisdiction. At that time, Director Eppink stated the park district would like to work with MWCD's Chippewa Subdistrict to improve the quality of water flowing into Chippewa Lake from the inlet channel north to Buckeye Woods Park.

- B. Guest Bill Thombs of Chippewa Lake asked the park board to reconsider its position regarding the Save the Lake committee's resolution requesting MWCD to expand its jurisdiction. He also suggested that representatives of multiple communities and multiple agencies such as the park district, the county commissioners' office, the county engineer's office, MWCD, Westfield and Lafayette townships, and the village of Chippewa Lake should convene with open minds to discuss solutions to the flooding issues.
1. Director Eppink is open to a group approach as the park district, on its own, cannot resolve this problem. He reminded those in attendance that the park district must also invest its time and resources in the remainder of Medina County as well.
 2. Director Eppink reported that he plans to attend the Medina County Commissioners' July 9 meeting to share the park district's position on the Save the Lake resolution and his intention to further work with MWCD to construct additional wetlands, etc., to slow the speed and improve the quality of the water entering the lake.
 3. Director Eppink stated that the park district is not "anti-anything" and is not against a multi-community and multi-agency collaboration.
- C. Guest Alan Robbins of Chippewa Lake stated that he understands the interrelationships with MWCD and the Army Corps of Engineers; however, he feels that if MWCD won't participate, there is no reason to continue discussing resolutions to the problem.
- D. Guest Bud Hardesty commented that the water is putrid, the algal bloom smells like rot, and the lake is a turbulent mud pile. He appreciates the park district's efforts to improve the water quality.
- E. Guest Keith Riedel of Chippewa Lake thanked the park district for all it has done to improve the lake. He acknowledged that neither the park district nor the village can find resolution on its own. He feels these groups and MWCD must work together for improvement. MWCD should be asked how it can help alleviate the problem north of the lake so the water can be mitigated as it heads south.
- F. Guest Jill Heck of Medina/Chippewa Lake thanked the board members for their service and stated she is encouraged by the idea of various entities sitting together to focus on solutions to overall water management and flood control. She also requested that the board modify its position regarding the Save the Lake committee's resolution for MWCD.
- G. Chairwoman Davis thanked the guests for their participation and said the park board will discuss how to best help all Medina County residents.
- H. Director Eppink stated these are big issues that can be overwhelming. He reminded the group that Mr. Slogar of MWCD said that simply expanding MWCD's jurisdiction will not resolve flooding as this is a bigger issue. Director Eppink suggested the need for better stormwater management in the Chippewa Lake area and that every entity needs to be thinking of smart development including land preservation and restoration along the Chippewa Inlet in addition to buffering between lands and waterways.

- I. Chairwoman Davis, again, thanked the guests for attending and stated that the park board needed to move on to the rest of its business.
 1. Guests John Sandora, Bill Thombs, Bud Hardesty, Keith Riedel, Alan Robbins, and Jill Heck left the meeting at this time.
