- B. Director Eppink reported that he had not received comments specifically for the board from the public prior to the meeting. However, he had received six emails following the January 7 public meeting held at Buffalo Creek to discuss docking at Chippewa Lake, and copies of those emails were forwarded to the board in advance of today's meeting.

VIII. NEW BUSINESS

F. Docking at Chippewa Lake

1. This item was moved forward on the agenda in consideration of Mr. Tressler's attendance at the meeting.
 - a. Director Eppink reported that the Chippewa Lake Stakeholders' Committee has met six times since September, and approximately 100 people attended the January 7 public meeting regarding docking that was held at Buffalo Creek Retreat.

- b. Director Eppink felt there were two main “take-aways” from the public meeting.
 - 1. No new or additional docks should be constructed on the lake, and dock holders should not be permitted to extend the length of existing dock structures throughout 2025 to permit the park district time to photograph/GPS the placement of current docks.
 - 2. The committee should increase the required distance between dock structures to a minimum of 30 feet.
- c. Legal Counsel Holland noted that the current draft of the proposed docking rules include two primary enforceable provisions: a dock structure may not extend more than 200 feet from the shore and that there is to be a minimum of 25 feet between docks. Director Eppink said that the rules must include that a maximum of two boat tags may be issued per residence and must clearly define the issues the park district may enforce (no dock tag, no boat sticker, etc.).
 - 1. Director Eppink said that the villages will only be issuing 2025 dock tags to those who held tags in 2024. No new applications will be accepted in 2025. He said that the application process for new, additional, or extension of existing docks still needs to be determined.
 - 2. Commissioner Neate commented that the stakeholders committee and the park district are doing the best that can be done to create docking rules at this time and that adjustments will need to be made as we move forward.
- d. No board action was requested at this time, and guest Steve Tressler left the meeting.

VI. DIRECTOR/STAFF REPORTS

A. Director's Updates

1. In addition to what was previously submitted in advance of the meeting, Director Eppink reported that he and Deputy Director Stray recently met with the Medina Farm Bureau. The agency will not be partnering with the park district due to its policy positions at the state level.
2. Director Eppink and Deputy Director Stray met with the Medina County Beekeepers Association to discuss partnership ideas. A site visit has been planned for February to view a possible location for a community bee yard.
3. Director Eppink reported that the annual OPRA Conference is less than two weeks away and that a number of staff members will be in attendance. He invited board members to attend the awards dinner being held Tuesday evening, February 4, where the park district will receive the top award for *Capital Projects Under \$500,000* for the Alladale Playscape. Director Eppink is presenting a session, "Partnering for Success," on Wednesday, February 5.
4. Director Eppink invited board members to attend a public meeting at Lodi Library on February 12, from 6 to 7:30 p.m., to collect feedback about the ongoing Killbuck Lakes master plan. The park district anticipates receipt of the plan from OHM Advisors this spring.

B. Deputy Director Stray reported that a plug in the inlet channel at the Chippewa Inlet Trail Vaughn project failed three months after installation, resulting in water flowing back through the inlet rather than into the linear wetlands. Park staff is working with the project engineer, Envirotech, and the contractor, Marks Construction, to determine why the plug failed and how to correct the situation. The park district feels the engineer and contractor are still responsible for the project as the park district has yet to receive as-built drawings, and the project hasn't been closed out. Commissioner Neate requested pictures to better understand the issue.

C. Due to the full January meeting agenda, Business Manager Chaney provided a verbal report, rather than written memo, as follow-up to the board's December request for analysis of credit card fees paid by the park district. The related business memo will be included in the February board package.

1. An analysis of the last three years shows that the five-percent convenience fee the park district charges the public for each shelter reservation paid via credit card is adequately offsetting what the district pays in fees to the three vendors involved in the online charge process.

D. Director Eppink introduced Project Coordinator Brooke Nekich, hired this past September, to the board. Project Coordinator Nekich said she is happy to be here, is getting settled in, and is looking forward to working on upcoming projects with Planning Manager Smith and Park Planner Kleshinski.

E. Director Eppink shared that while Master Renovations was removing the Chippewa North barn foundation as part of the current renovation project, it discovered rotten timber in need of replacement at an approximate cost of \$30,000 above the contract price. Planning Manager Smith said that these structural issues were concealed by the foundation. To preserve the structural integrity of the building, the rotten material will need to be replaced before the project can proceed. This item will be brought to the board for deliberation at another meeting.

- A.** Chairman Venner offered a motion that the board move into executive session to consider the purchase of property for public purposes, where premature disclosure of information would give an unfair competitive or bargaining advantage to a person whose personal, private interest is adverse to the general public interest and for the purpose of considering the appointment, employment, dismissal, discipline, promotion, demotion, or compensation of a public employee or official.
